

March 23, 2020

Dear Valued Customer,

We are aware that many states have enacted stay-at-home directives in response to the COVID 19 crisis. These directives allow for exceptions for “essential” businesses that are needed to support key industries and sustain national security. Paramount Tube has been designated as an “essential” manufacturer under both the state and federal guidelines. Our products support the medical, electrical, defense, agriculture and many other key infrastructure industries.

Our manufacturing facilities in Ohio and Indiana will continue to operate at full capacity and, in some cases, we are increasing capacity to supply critical components during this crisis.

Please feel free to email or call if you have any questions.

Regards,

Tim Shaw
Director, Sales and Marketing
